Overview of VA Health Care Enrollment

• VA’s enrollment system designates Veterans by priority groups.
  – Higher priority groups – Service-connected Veterans who have received a VA disability rating.
  – Lower priority groups – Denote other eligibilities generally based medical conditions, combat status, environmental exposures and income.

• All enrolled Veterans receive VA’s comprehensive Medical Benefits Package which includes preventive, primary and specialty care, diagnostic, inpatient and outpatient care services.
  – Veterans may be receive additional benefits, such as dental care depending on their unique qualifications.

• VA is unable to enroll certain higher income Veterans without any qualifying eligibility factors such as medical conditions, certain combat service or environmental exposures. For financial thresholds see: http://www.va.gov/healthbenefits/cost/income_thresholds.asp

Locations of Care

- With over 1700 locations of care, VA is likely to have a hospital or clinic close to most Veterans’ homes.
- Coverage goes with Veterans as they travel or move.
- Find near-by locations of care at www.va.gov/directory.
- NYH Medical Center and Community Living Center
The Affordable Care Act, also known as the health care law, was created to expand access to affordable health care coverage to all Americans, lower costs, and improve quality and care coordination. Under the health care law, people will have:

• health coverage that meets a minimum standard by January 1, 2014;
• qualify for an exemption; or
• make a payment when filing taxes if they have affordable options but remain uninsured.

Starting October 2013, Health Insurance Marketplaces will be a new way to find health coverage. On the Marketplaces, some people may be eligible for lower costs on premiums and out-of-pocket costs based on income.

For more information on ACA and the Marketplace, visit www.healthcare.gov.
VA Health Care, ACA and Veterans

• VA wants all Veterans to get health care that improves their health and well-being.

• Enrollment in VA health care, CHAMPVA and Spina Bifida programs meet the health care law’s coverage standards.
  – Enrolled Veterans do not need to take any additional steps to meet the health care law coverage standards.
  – The health care law does not change VA health benefits or Veterans’ out-of-pocket costs.

• VA will continue to provide Veterans with high quality, comprehensive health care and benefits they earned through their service.

• Enrolled Veterans can use VA and other federal health care coverage including Medicare, Medicaid, TRICARE or private health insurance.
