The next meeting of the North Texas Myositis Support group, will be November 9th, 10:00 a.m. until 2:00 p.m. Our special guest will be Jim Mathews, who is the vice-chairman of the board of The Myositis Association. Jim, who is a pharmacist by training, will be here to bring us up-to-date on the latest from TMA. You’ll enjoy Jim’s style as well as his passion for finding a cure for Myositis. Jim has dealt with IBM for a number of years. Our meeting, sponsored by CSI Pharmaceuticals AND The Summit at Grand Prairie, is such an excellent opportunity for us to hear each person’s Myositis journey, but also to lend help to those in their own journeys. Don’t miss it! DP

ABOVE: Great time at a previous North Texas Support Group Meeting!
LEFT: Jim Mathews and Don Parks. Jim is our special guest on November 9.
BELOW: Sandi Parks representing us well at National Patient’s Conference in Minneapolis.

LEFT: Our own “Myositis Joe” Sanchez, after winning second place in the Texas State Table Tennis Championship, in the category of his age group. Joe continues to push forward with daily routines of exercise while dealing with Inclusion Body Myositis (IBM). We are proud of Joe on so many levels!
FROM MINNEAPOLIS AND THE NATIONAL MYOSITIS PATIENTS CONFERENCE—First time conference attendees made up four of the five from our group attending the Myositis National Patients Conference, held this year in Minneapolis, MN, September 5-8. Sandi Parks reports that this conference was so outstanding, with many more sessions to attend than there was time, but also that getting those of our group together for a “group photo” was like herding feral cats! (Photo of Mrs. Parks is elsewhere in the newsletter with our group’s booth on Thursday evening!) Plans for next year’s conference are well underway, and we know that it will be somewhere on the west coast, and that location and the dates will be announced soon. Make your plans for September 2020 now, and a wonderful time.

WHAT’S YOUR MYOSITIS STORY? Share your thoughts on paper for the next edition of the newsletter. Don’t worry about grammar, style, etc. We’ll have our editorial department do that for you! We NEED to hear from you!!

From Don and Sandi Parks

Dear Ones,

As we are now in our eighth year as your volunteer coordinators, and after our move to Arkansas in the spring of this year and now five hours from the DFW Metroplex, we are finding challenges along the way as your leaders, mainly with the distance factor. Our great thanks to Joe Sanchez for his role as our liaison with our hosts at THE SUMMIT. There are other roles, publicity, planning, logistics, recruitment, and the like which perhaps some of you could lend your assistance. We are so hopeful to continue in our role with you. Can you assist? Let us know.

D & S

The North Texas Myositis Support Group exists for the exchange of ideas and resources to help you deal with your continuing and future fight with Myositis. Come and be a part of this investment. You’ll be glad you did. We have a wonderful time. If you need any assistance in getting to our meetings, please advise us. For some it is a challenge to be present, and if we can help, let us know.
NORTH TEXAS MYOSITIS SUPPORT GROUP
Fall Gathering at The Summit in Grand Prairie
SATURDAY, NOVEMBER 9, 2019
10:00am until 2:00pm

At THE SUMMIT, Grand Prairie’s wonderful multi-million dollar senior center.
If you’d like a tour, or to make use of the pool or other of the facility, simply be in touch with Joe Sanchez, and plan to pay the $5 guest fee to the facility.

HUMOR CORNER

An Industrious Turkey Farmer and Genetic Engineering!
An industrious turkey farmer was always experimenting with breeding to perfect a better turkey. His family was fond of the leg portion for dinner and there were never enough legs for everyone. Undaunted, he tried for more than ten years!
After many frustrating attempts, the farmer was relating the results of his efforts to his friends at the general store get together. "Well I finally did it! I have created a turkey that has 6 legs!"
They all asked the farmer the BIG question of how it tasted.
"I don't know", said the farmer. "I’ve chased it for weeks and can’t catch it!"

How Your Support Group Can Help YOU

We are so grateful for each person who plays a part in the Myositis Support Group of North Texas. For us, it is a great time of getting to know folks who share similar struggles and to “talk shop” as well as be inspired by the stories of each of the participants. It is also such a great way for each of us to learn more about the disease, learn the latest in therapies, and to hear of research into finding the cause and cure of that which each of us deal with on a daily basis.

Please remember that this is YOUR group, not “that” group. YOU belong. By virtue of this common disease and daily challenges, you are the reason we travel alongside each other sharing in these ways. We hope you will make every effort to attend the meetings and to stay in touch via email, phone, or snail-mail, keeping us up to date on yourself. We not only desire to be a major help to you, but also to those who assist you as caregivers and supporters. We know firsthand that our caregivers are our lifeline. We hope that you find the meetings helpful as well as the newsletters and other support material. We encourage you to visit www.myositis.org often, the official website of The Myositis Association, for information, tips, and links that will hopefully make dealing with the disease an easier thing to do. Please send us suggestions, information, personal helps to share, or anything that might be good to include in the newsletter. This group exists to serve you. So, come and be a part! It will help you!
